Water filter + HEPA filter

Details

Description

Floor cleaning The steam floor nozzle with suction can be used to dry vacuum any kind of floors, steam vacuum hard floors, e.g. tiled or mable covered floors. Additionally one can fresh up carpets with the steam vacuuming function. There are different inserts for different applications: bristled inserts, squeegee inserts and carpeting inserts. **Other hard surface cleaning** The steam hand nozzle with suction can be used for window cleaning and on all smooth surfaces, like mirrors or kitchen furnitures. There are also different attachments for different applications: narrow squeegee attachment, wide squeegee attachment and bristled attachment. **Other cleaning applications** The detail nozzle with suction can be used to clean areas that are difficult to reach with other accessories. Either without attachment or with round brush or with extension. **Ironing** The Kärcher steam irons are perfect for ironing several layers of fabric. You can choose between the iron 6002 (with easy stainless steel soleplate) and the iron 7002 (with precesion-finished aluminium soleplate). Both irons have got a special connection for steam vacuum cleaner.
