Details

Description

Combines the cleaning power of high pressure and flow rate with the advantages of hot water at 80°C for hygienic cleanliness. Introducing heat accelerates the cleaning process. Cleaning agents are more effective, oil and grease stains can be removed faster. The object being cleaned is heated so that it dries quickly. Cleaning time is reduced by between 40 and 60 per cent.

Application

Hot on dirt - the hot water high-pressure cleaner for private households and exacting DIY enthusiasts for removal of stubborn dirt, for example oily or greasy marks.
